

## COMPATIBILITY OF TUNE SADDLES AND SEATPOSTS

The Tune saddle's rails are oval (Komm-Vor: 8 × 10 mm, Speedneedle: 7.5 × 9.5 mm). That is why sometimes there can be problems by attaching the saddle with side clamping brackets. But often there are offered special clamping brackets.

### Compatible seatposts:

3T IONIC-0 (with adapter for 7 × 10 mm)  
3T IONIC-25 (with adapter for 7 × 10 mm)  
3T STYLUS-0  
3T STYLUS-25  
AX lightness SLT  
Bontrager / Trek (compatible with special clamping brackets for Oversize rails)  
Canyon S13 (VCLS CF)  
Canyon S23 (VCLS CF)  
Control Tech RP Carbon Comp  
Easton EC70  
Enve (with adapter for 7 × 10 mm)  
Extralite (every seatpost)  
FRM carbon seatposts  
Heylight HS II (only per special clamping)  
Hilset Titanium  
Kind Shock  
KCNC Ti Pro Lite  
Kore Lite  
Look Ergopost  
LP Composites  
Mcfk (every seatpost)  
New Ultimate (every seatpost)  
Ritchey (all models, carbon and aluminium)  
Ritchey One-Bolt (with 7 × 9.6 mm clamp)  
RockShox Reverb  
Schmolke Carbon SL / TLO  
Shimano XTR  
Specialized S-Works carbon (with adapter for 7 × 9 mm)  
Syncros micro-adjust  
Syntace P6  
Thomson  
Trek / Bontrager (with special clamping brackets for Oversize rails)  
Trigon Carbon  
Truvativ Team  
Tune Starkes Stück / Schwarzes Stück / Meister Stück / Krummes Stück
