

These are the most important questions you must answer to be able to get your ideal bag:

1. **Transportation method?**
2. **Protection level?**
3. **Type of bike?**
4. **Bike packing difficulty?**
5. **Budget?**

Hard Cases: They are made from a tough plastic, such as ABS and polycarbonate. We combine strength and rigidity with lightness and stability. They are the best choice for air travel!

Soft Bag with AntiShock bike frame: It's the perfect combination of a soft bag and metal structure that will protect the critical parts of your bike of shocks, vibrations and impacts, while providing lightness.

Soft Bags: They are made from strong silky thermoplastic resilient synthetic fibers and foam padding, combining softness and flexibility. They are practically weightless and will keep your bike safe of any scratches and bumps.
